

# Oil, gas & chemical industry solutions

ABB offers the complete range of products, solutions and services for the electrification infrastructure in the Oil, Gas & Chemical industry. ABB makes it easier to do business with, being the one-stop-shop from source to socket, and further offering the full integration and optimization of these products and solutions, backed by a global presence and service footprint. ABB Electrification Products save time and costs during project execution and ensure highest process uptime, with increased efficiency and maximized safety.

With our oil and gas solutions we provide you:

- Total cost of ownership reduction
- Increased safety and control
- Continuous operation and increased reliability
- Energy efficiency
- Harsh and demanding environment protection
- Hazardous location protection
- Earthing and lighting protection

## Highlights

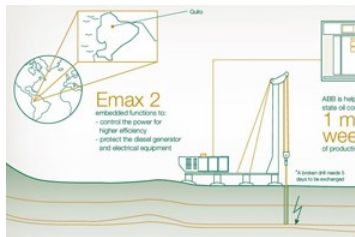

ABB to cut downtime for Ecuador's state oil company

Statoil selects time-efficient and easy relay upgrade with ABB's Maintenance Exchange Unit service

Reduced maintenance with the new ABB XLF LED floodlight for hazardous areas

Installation in explosive environment? We have the solution.

## Main products

<p>Power distribution equipment</p>	<p>Safety, protection &amp; control</p>	<p>E-Houses, Integration &amp; Optimization</p>	<p>Low voltage power distribution</p>	<p>Switch &amp; disconnect</p>	<p>Motor control &amp; protection</p>
<p>Explosion proof lighting &amp; enclosures</p>	<p>Industrial &amp; explosion proof cable protection systems</p>	<p>Connectivity &amp; grounding</p>	<p>Engineered installation products</p>	<p>Service</p>
